

ARUNDHUTI BHATTACHARYA

Chicago, IL | 872-258-6714 | arundhutib.work@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Designer with a Master of Design, an MBA in marketing and a bachelor's in architecture. Brings hands-on experience in translating complex technical content for audiences from the general public to domain experts across print, digital, presentation, and environmental formats. Skilled in producing visual communication material incorporating user-driven feedback. Experienced in designing brand systems including identity and logo and handling social media communications for brands and organizations. Organized and detail-oriented, capable of coordinating end-to-end projects from scope through execution in Adobe Creative Suite.

EXPERIENCE

Information Designer & Illustrator at IIT Institute of Design

Chicago, IL

Client – [Ann & Robert H. Lurie Children's Hospital of Chicago](#) (Graduate Design Workshop – Healthcare) *Aug 2025 to Present*

- Made jargon-heavy information from multiple stakeholders accessible to non-clinical readers (Flesch-Kincaid level 7).
- Created a 24-page digital and printed navigation guide with illustrations to simplify pediatric wheelchair acquisition.
- Applied plain-language and information-design principles to effectively communicate complex clinical content to intended audiences, validated by an A+ usability score (SUS 84.7).
- Incorporated user feedback as a part of the co-design process through online workshops and webinars.

UX and Visual Designer at IIT Institute of Design

Chicago, IL

Client – [Diabetes en Movimiento](#) (Graduate Design Workshop – Healthcare) *Jan 2026 to May 2026*

- Translated complex scientific and medical information into a quiz-based digital tool that helps young adults with Type 1 diabetes understand and visualize their health progress.
- Designed visual system in Figma, tailoring language, imagery and tone for young adult users.
- Synthesized mixed-methods secondary research into a framework for enrollment and continued use.
- Built a working digital prototype using AI-assisted coding tools, carrying the design through to front-end implementation.

Visual Designer at Chicago Park District

Chicago, IL

Client – Douglass Park (Summer Intern 2025) *May 2025 to Aug 2025*

- Designed promotional signage and environmental graphics for a community engagement booth at the annual Douglass Park arts festival.
- Gathered input on community's wayfinding needs from 50+ festival attendees through an engaging, hands-on art activity.
- Led structured research and synthesized findings into recommendations for a wayfinding and signage system.

Brand Designer, Market Researcher at Kaplan Institute

Chicago, IL

Client – AI for Services (Start-up Accelerator Program 2025) *Jan 2025 to May 2025*

- Led market and user research, synthesized qualitative and quantitative findings to support a business case for a startup.
- Led design of brand identity, produced digital communication material and investor pitch deck to convey product vision and differentiation for VC audience.
- Designed marketing emails and executed targeted outreach campaigns achieving a 3–4% response rate to drive product discovery.

PROGRAM FACILITATION AND VOLUNTEERING

Workshop Designer and Facilitator

Chicago, IL

[Chicago Architecture Center](#) (in collaboration with IIT Institute of Design) *March 2026 to May 2026*

- Designed and facilitated a 4-hour peer-exchange workshop.
- Led end-to-end workshop development, including agenda design, activity and material creation, participant invitation and RSVP communications, space and logistics coordination, and on-site facilitation (run of show).
- Engaged 12 cross-functional stakeholders – including C-suite leadership, staff, and docents – for interactive activities.

Freelance Workshop Facilitator

[Decision Quality Center at Illinois Tech](#) (in collaboration with IIT College of Computing)

Chicago, IL
October 2025

- Facilitated a full-day strategic workshop for 20+ Illinois Tech College of Computing faculty and administrators.
- Managed participant communications, documented workshop outcomes and produced a key insights report to inform institutional decision-making and future strategy.

Social Media Content Creator/Manager (Volunteer)

Chicago Grassroots Tech Community

Chicago, IL
2026 – Present

- Create and manage social media content for event promotion posts and graphics to build community visibility.
- Apply visual communication and audience-first design principles to produce platform-specific content.

Social Media Content Creator (Volunteer)

Kheyal (Bengali Association at the University of Chicago)

Chicago, IL
2026 – Present

- Create Instagram content for Kheyal, including promotional graphics for an upcoming Bengali festival celebration.
